

# RGB Grafix

(A division of Total Consulting Group)

We are a full-service, quality one-stop shop for computer-aided graphics and services.

Our range of creative products include:

## Digital Painting Studio:

There is 'nothing' under the sun that we cannot reproduce in our digital painting studio. This is only an indicative list of possibilities:

### Photo restorations and Artwork:

We go considerably beyond merely restoring a photograph to its original splendor. We can convert any photograph to the equivalent of an oil-painting, in a wide array of options - traditional, impressionist, or whatever is your preference. The output medium can be on

• art paper

• specially treated canvas with lacquer coatings which makes the finished product virtually waterproof

• traditional photographic-quality bromide paper.

We specialize in artwork for book publishing, color separations, novelty and personalized cards.

### Animations

We specialize in computerized animations, ideally suited for inclusion in Web-pages, commercials and movie projects.

### Product or concept visualization

We can transform your vision into reality, be it a commercial product, an architectural fantasy ... if you can dream it, we can build it ... graphically. Our gallery of products is available for viewing at a web site of our creation at <http://sankalpa.tripod.com/bus/s07bus.html>

## Internet related services:

We specialize in creative content generation and design of web pages. Please visit 'Sankalpa' (at the above address) to assess our capabilities.

As an authorized WebPartner with **IMC Online** of USA, we also provide consultancy for hosting services.

Let us serve your creative requirements. Call us today!
